A Covenant with God Part 8

August 8-9, 2009

GIMEL

3rd Letter of Ancient Hebrew Alphabet

Gimel - The third letter in the Hebrew alphabet reflects human purpose on earth. This letter signifies our actions in everyday life are to benefit others. True help and true service, right work and diligence will bring out hidden reward. Blessed are the kind hearted, for they will inherit the kingdom of God.

Gimel is used in opposing words as evil and paradise, separation and togetherness, to form a more complete and perfect entity.

Gimel represents development - the process by which our initial spark of creativity must be properly guided until it can flow into the physical reality.

Gimel speaks of the existence of soul and spirit already into the invisible brought to life in the visible through male and female naturally giving nature birth then the redemptive process of rebirth on earth to live and end up in the invisible heaven again for eternity. What is and will be already is in the unseen and will always continue to be for the life energy of God from the foundation of time cannot be created nor destroyed, only changed! You may think you create life, but you only changed energy from unseen to seen to unseen again to complete God's holy mission for that life! Though our free will determines where we spend eternity, light or darkness also, our words, thoughts, and actions determine the lifestyle we live on earth! Blessed-cursed, healthy-sick, wealthy-poor, confused-peaceful, happy-sad.
